

 **SHAKESPEARE.**

MOTORIZED ANTENNA MOUNT

STYLE **9187-MM**

*Premium Stainless Steel Construction. Push-Button Convenience.
Built for the Marine Environment.*

Engineered for dependable performance and effortless efficiency, Shakespeare's Marine Motorized Antenna Mount delivers unmatched control and reliability for demanding marine environments. Designed with marine-grade materials and sealed for all-weather performance, this rugged mount ensures long-term durability even in the harshest saltwater conditions. Its motorized tilt system allows antennas to be raised or lowered, while minimizing the need for manual handling. With sleek design, shock-resistant construction, and effortless push-button operation, the Motorized Antenna Mount is the ideal solution for convenient, secure antenna deployment on any vessel.

PRODUCT HIGHLIGHTS:

- Full 0°-90° Range of Motion
- Endurance Tested to 1,500 Cycles
- Corrosion-Resistant 316 Stainless Steel
- Push-Button Raise & Lower Operation
- Enclosed Gear Drive for Extended Service Life
- Low Power Draw (<1.5 Amps)
- Withstands Harsh Saltwater Environments
- Universal Antenna Compatibility with All Standard 1"-14 Marine Antennas up to 8'
- Supports 24V Electrical Systems
- FCC/CE Certified

MODEL NUMBER	9187-MM
DESCRIPTION	Marine Motorized Mount
UPC	719441111526
CASE PACK	6
COUNTRY OF ORIGIN	Taiwan
HS CODE	8529.10.4040
HAZMAT	No
TUBE DIMS & WEIGHT (SINGLE)	6" x 5" x 9.5" 3lb.
